

The Wizard of Pips

The opportunity
to become a full time
professional day trader
working just one
hour a day by joining
The WIZARDS of PIPS

\$TRADE token from The WIZARDS of PIPS

Institution.

The Wizard of Pips

The TRADE token is an access token allowing the community inside the trading community for Institution.co.uk - a professional FOREX and Indices trading floor based in London.

Trading the UK London and US opening bells LIVE, the community are able to take advantage of real LIVE TRADING. There are many 'calls' groups out there, many with 10's of thousands of members - NONE of these groups trade LIVE and call trades as they happen. The Wizards group let you behind the scenes of a real life trading floor.

It is the vision of the founders to build a team of fully qualified and experienced traders and provide access to some of the world's best trading tools as well as create a community of like minded people.

Too much of the trading industry revolves around the latest and greatest 'new' EA's and now AI tools, most of which are not new (recreations of semi successful tools that have been rebranded) and there are too many new traders buying them. In terms of real education, yes it does exist in the space but expect to pay in excess of \$20,000 to access the people who provide high level insight and education. With the TRADE token holding it will enable our community to access this quality of education AND live trading in one place for a fraction of the cost. As the community grows and the token price increases with higher and higher floors so will the cost to enter, so those who join at the start of this journey will be able to access 10's of thousands of dollars of value for maybe as little as \$100.

Institution.

The Wizard of Pips

The Wizards themselves are a group of master traders from around the world with many years experience. The team specialize in The DAX, NAS100, FOREX pairs as well as Gold and have an astute ability across all major Forex pairs utilizing simple but highly effective strategies. They have been trained and mentored by some of the best traders in the world and their aim is to help you become an effective and profitable trader as quickly as possible with as little risk as possible.

On top of that you can become part of a community where crypto assets are traded daily, where calls are made for new and exciting projects, where real education and assistance is provided around the defi/crypto market.

Again this is \$1,000's in value. With the growth of the community we intend to become a global hub for traders to access ideas and education while positioning and profiting from the next bull run.
